# *Maintenance on the move*

# Save time and money with cloud-based maintenance

*The key advantages of INEXTIA include a user-friendly layout, easy access and simplicity of the system. There are no tricky installations, backup routines and user expert configurations.*

*INEXTIA is 100% cloud-based with a simple user interface. You can access the system from your computer, laptop or tablet. Minimum training is required, and you can easily access the system with a personal login.*

**With INEXTIA, you get:**

›› **Minimum training costs**

›› **Savings on maintenance and IT**

›› **A platform independent software**

›› **A hosted solution to avoid technical maintenance**

*"With cloud-based maintenance, everybody has access to the system from any location. We can easily report defects on the move. INEXTIA makes maintenance easy for us."*
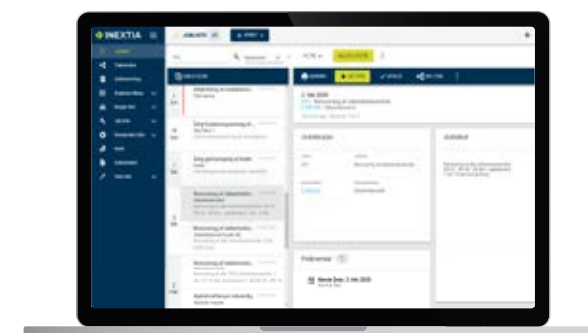

**COLAS DANMARK A/S**

With many years of experience in maintenance and close collaboration with customers from different industries, we have achieved a unique flexibility that ensures optimization and efficiency to all types of companies

# Achieve reduced operating costs

*INEXTIA creates value through digitalization and efficiency.*
*You work in a simple job list which gives you access to technical information and a great overview. This saves your maintenance department valuable time.*

**You can manage and optimize:**

›› **Asset information and components**

›› **Maintenance jobs and tasks**

›› **Procedures and instructions**

›› **Spare parts and stock**

›› **Reports and analysis**

# INEXTIA offer a wide range of features and opportunities

*INEXTIA can be organised and structured in a way that matches your routines and standards. From the different modules, you can collect important historical data in the quality you need.*

*"INEXTIA gives us the best conditions for planning and structuring our maintenance tasks. It has resulted in more than 70 % planned maintenance instead of 10 %."*

**FIBERLINE COMPOSITES A/S**

**Examples of modules in INEXTIA:**

| | |
|---|---|
| ›› **Analytics** | ›› **Job Relation** |
| ›› **Document Management** | ›› **Job Sequence** |
| ›› **Forms** | ›› **Map** |
| ›› **Procurement** | ›› **Stock Management** |
| ›› **INEXTIA App** | ›› **Stock App** |
| ›› **Job Request** | ›› **Logbook** |
| ›› **Job List** | ›› **Masterdata** |

"INEXTIA works for us because it matches the functional needs across our different departments. It also ensures that we have one overall solution for storing relevant data and history."
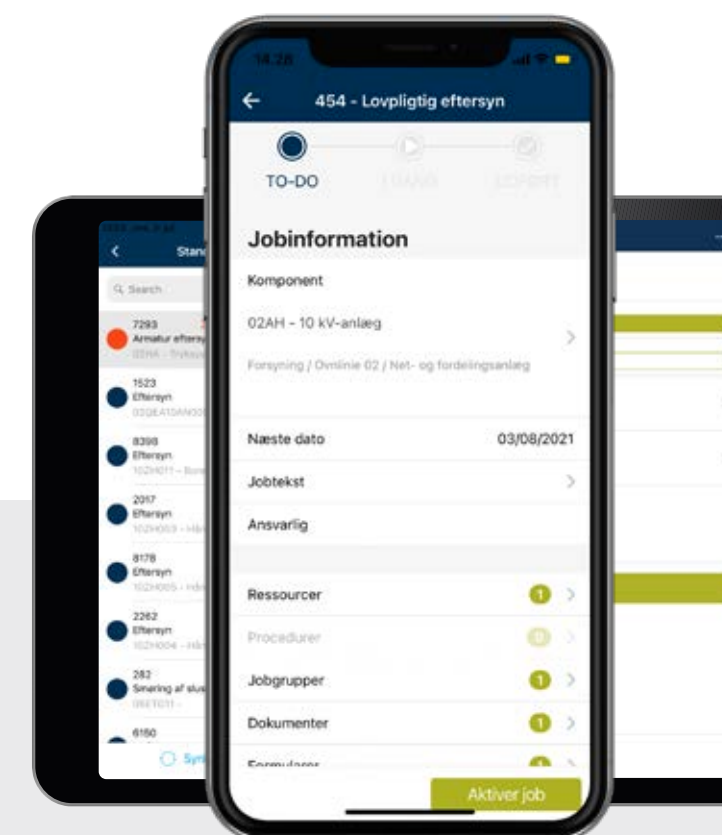

FORS A/S

# Use your mobile device as an important tool in the operating and maintenance department

**The INEXTIA app offers the possibility of managing maintenance jobs and forms when you are on the move.**

You can create, activate and finalize jobs directly from your INEXTIA app. Each job has a job description, job history and details about the related components. If you have the Forms module, you can also create, fill in and submit forms without attaching documentation.

*Report defects directly from the INEXTIA App. Defect reporting can be ad hoc maintenance tasks and jobs, which are found and located on the move. Reporting makes it possible to measure and follow up on unforeseen tasks.*

# A solution for all companies regardless of size or industry

**INEXTIA is a maintenance system, which contains everything you need to manage and carry out maintenance in your company – regardless of size or industry.**

INEXTIA is used by many different types of customers that do not belong to a specific industry. Basically, our maintenance system can be used by all companies who want to optimize their maintenance department.

*"When we chose INEXITA as our maintenance system, we also chose a supplier that we are comfortable with. Not only did we get a new system supplier, we also got a relevant sparring partner going forward."*

**PLASTIX A/S**

*Representative industries:*

›› **Production**

›› **Utility**

›› **Pharmaceutical**

›› **Food**

›› **Facility**

›› **Thermic power stations**

›› **Ports**

›› **Wastewater**

# *More than just software*

**INEXTIA is more than just a software system. We believe in collaboration and partnership, and we know that the right service and support makes all the difference in the world.**

That is why we make it our business to go beyond what is expected. Our consultants are with you every step of the way and will help you implement your solution to ensure a smooth process.

If you have any problems or inquiries, help is never more than a phone call away. We offer consulting, training courses, and, of course, daily customer support. Support issues are handled immediately by software experts who know the solution and who can offer the very best guidance.

**We always offer assistance with:**

›› **Data conversion**
›› **Data structuring**
›› **Training**
›› **Implementation**
›› **Integration with other systems**

›› **Projects**
›› **Best practice**
›› **Backup of data**
›› **Hosting**

# INEXTIA

BY RINA

INEXTIA is a cloud-based maintenance system creating value through digitalization, efficiency and savings on internal IT-operations. No matter your location, you can document and manage maintenance: e.g., reporting, maintenance jobs, defect reporting and maintenance history. Work in a simple task list which saves your maintenance department time and money.

INEXTIA is owned by the international concern RINA which has a global network of 4,000 talented professionals operating out of 200 offices in 70 countries. We constantly perform technology scouting for innovative digital solutions to support our customers in facing the new challenges their business brings.

We support companies from all industries with digital solutions.
